

Shiels Jewellers Selects AdvanceRetail for Company-wide Rollout

The Board of 3Q Holdings Limited (ASX: TQH) is pleased to announce that Shiels Jewellers, a leading specialty jewellery chain, has selected one of TQH's Point-of-Sale (POS) systems, AdvanceRetail, for installation throughout the company's stores.

Originally founded in 1948, Shiels Jewellers is headquartered in Adelaide, and operates 38 stores throughout South Australia and Western Australia.

In parallel with the new POS system implementation, Shiels Jewellers have implemented a Microsoft Dynamics ERP solution, provided by Open Systems Technology, an Adelaide-based Microsoft Gold Certified Partner, and fully integrated with the AdvanceRetail POS. In a deal with an initial value to AdvanceRetail of over \$125,000, the solution was successfully rolled out to all stores.

Commenting on the implementation, AdvanceRetail CEO Mark McGeachen said, "It is exciting to be associated with such an iconic brand considered to be the leading South Australian jewellers". Shiels Jewellers have been in business for almost 60 years and have almost 40 branches in two states. They are planning to expand to 150 stores within the next two years, we look forward to growing with Shiels Jewellers as the organization continues its expansion."
